

Pharmacy Partnership Sign-Up Details

Australian Vaccine Services (AVS) is Australia's largest provider of workplace flu vaccinations. In 2025 alone, we completed over 160,000 onsite vaccinations across 4,850 clinics, with a further 168,000 vouchers accessed through our network. These vouchers enable our clients with the flexibility of using over 2,200 stores across Australia and a further 300 locations across both islands of New Zealand.

We're proud of the growing network of locations available to our clients, but we know there's always room to improve. To make flu vaccinations accessible to every workplace, we're looking to partner with pharmacies right across Australia. Whether you're in the heart of the city or a regional hub, joining our network means helping more Australians stay healthy and protected.

What's involved:

- No signing up fee or ongoing fees to join our network
- Access to a customer base of over 1,000,000 people.
- Drive more customers into your pharmacy, generating additional sales opportunities beyond the flu vaccination itself.
- It's risk free - If no one uses a voucher, you are charged nothing.

What do you need to do to sign up?

Please click the link below to complete our sign-up form (nothing is locked in at this stage) and refer Pharmx in the notes field.
